Whose Say-so is Best?

Whose Say-so is Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so slone as to their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives. Dr. Pierce's medicines, however, form a single and therefore striking exception to this rule. Their claims to the confidence of invalids does not rest solely upon their makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well known medicines.

Amongst these writers we find such medical light as a Prof. Finley Ellingwood, M. D.

in praise of the curative varied of these several ingredients entering into these well-known medicines.

The Stricken Rose From Grief.

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how polgnam would be its grief to discover, in the height of its blooming giory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; the is a verifiable store-hours of pleasing rewards, for those who seek her aid, in the years gone by falling hair and grayn as have cast a gloom over the lives of thomsands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbor's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 19c in stamps for sample to The Herpicide Co., Detroit, Mich.

[Entered at the Postoffice of Alexandria, Virginia, as second-class matter.]

MRS. THAW'S LIFE STORY. Mrs. Evelyn Thaw recited every detail of her checkered life to her connsel in New York yesterday. The former netress and model told a tale of being

drugged by Stanford White. The attempt made in New York to | create the impression that Harry Kendall Thaw had never known of the relatious between Stauford White and Evelya Nesbit before she became Mrs. Thaw has caused much comment in Pittsburg, where it has been pretty well known that White was but one of many previous to the coming of Thaw.

From evidence that is apparently easy to obtain in Pittsburg, the New York authorities will, it is said, be able to prove that Harry Thaw was not only cognizant of the relations which had existed between Evelyn and White before he took up with her, but that other members of the Thaw family were also acquainted with the rather checkered career of Miss Nesbit before giving consent to the wedding of Harry with The assertion is made Pittsburg that Evelyn Nesbit, beshe was taken into fore Thaw family as Harry's wife, was taken to task by Mrs. William Thaw, to whom she confessed all of her relations with Stanford White.

The girl said, it is asserted, that a certain Pittsburg woman had taken her to New York and had introduced her to White, telling her (Evelyn) to "go along" with him; that he was a millionaire fond of young and beautiful girls, and that he would "make her" in the eyes of the artistic world,

It is alleged that Mrs. Thaw was so horrified that she could scarcely go on with the interview; that she demanded the name of the woman and it was given. It was then too late to stop the wedding between Harry Thaw and Evelyn except at the price of yet more scandal, but Mrs. Thaw, according to the story, made Evelyn promise her that after she became Mrs. Harry Thaw she would never again speak to or recognize the woman who, she said, had introduced her to White and others in New York. This Evelyn promised faithfully, and her friends in Pittsburg say she has kept that promise.

It was through the alleged boastfulness of Evelyn that this feature of the Thaw-Nesbit alliance became known. Some time after she became Mrs. Thaw, it is asserted, she discussed the conditions under which she became such with some of her bosom friends. They have not been slow to come to the front now, and it is considered likely that several persons in Pittsburg will be wanted in court in New York. The woman who Evelyn Nesbit Thaw says first introdued her to White is still in Pittsburg, but is denying herself to all callers.

BICKS FOR JULY. A regular sterm period is central on

the 5th, having for its disturbing causes the equinoxes of Vulcan, Mercury, Ve nus, Mars, Jupiter and Saturn. Any one can predict warm weather for July, so we predict that an excessively warm wave will pass over this country generally, and over other countries as well during the first ten days of this month. Mind you, gentle critic, it will pass over and not flop down like a lid and remain over all the country the whole of the ten days. This condition will increase in area, reaching a crisis from the 4th to the 7th. The astronomic conditions on and touching the 4th to 8th indicate disturbances of more than ordinary vio lence. If severe and general thunder storms do not relieve the electric and aguetic strain about the 4th to 7th the high temperature will increase. Nor-mally heavy rain, hail and thunder should occur from 4th to 7th, followed by almost unseasonable change to cooler. A reactionary storm period is central on the 10th, 11th and 12th. On the 12th

the moon crosses the celestial equator coming northward. This fact will add to the probabilities of very high temper ature, low barometer and thunder sterm and next to the 12th. The Venus period extends up to about the 25th, so that the extremes from summer heat to sudden cool are liable to characterize the storms and weather changes at all

July periods up to that time. A regular storm period covers the 15th to 19th, central on 17th. We predict it will be warmer at some time then others and that this period, the 25th to 19th, will lead up to one of July's warmest rapids. More thruster storms at the storms of the storms est periods. More thunder storms and ocal cloud bursts are probable about the 17th to 19th A Venus revulsion to very cool might be expected but for the fac that the new moon at a solar eclipse mode falls on the 4th.

The reactionary storm period is central on the 22nd and 23rd, in which storms of lightning will be reported from extremes of the globe. Within 60 hours of 6 o'clock p. m. on the 21st earthquake and volcanic perturbations will reach a maximum tendency in most countries

Long Tennessee Fight. For twenty years W. L. Rawls, of Bells, Tenn, fought musal catarrh. He writes; "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Araica Salve to the sore surface; this caused the sor cases and swelling to disappear, never to return." Best salve in existence. 25c at E. S. Leadbeater & Sons', Druggists.
